

Palliative Care Emergencies and Recognising Dying Training

We are delighted to be providing this Palliative Care Emergencies and Recognising Dying education programme for 2024.

This training is commissioned by the Black Country Training Hub and is free to attend for Nurse and AHP Advanced Clinical Practitioners in General Practice who wish to expand their knowledge of end of life care and advanced care planning, based in the Black Country

Course objectives:

- To define what is Palliative Care and End of Life Care
- To identify those patients approaching the end of life and plan ahead
- To recognise common symptoms and their management
- To increase awareness of identifications / prognostication / phases of illness / illness trajectories
- To understand what is a good death - their last weeks and days
